# ALL MARKERS PICTURED ARE SHOWN ACTUAL SIZE

Many other size variations are available for these standard designs . . . particularly in the No. 22-2500 slot and tongue series.

**STANDARD MATERIALS** are .012" and .020" thick aluminum. Zinc, Brass, Copper and other materials, and other gauges (to .060") are also available at no or nominal price differences. Color anodized finishes (all standard colors) are available for most aluminum markers.

**SPECIAL MARKERS.** We will be pleased to quote on further variations of all markers listed or on your special requirements. Send us your drawings or specifications.

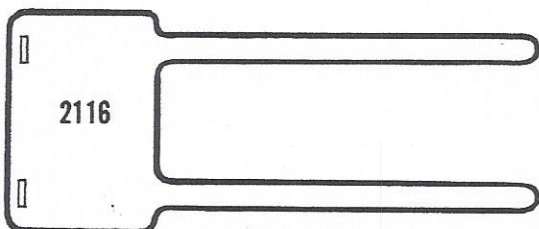

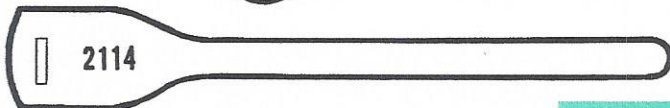

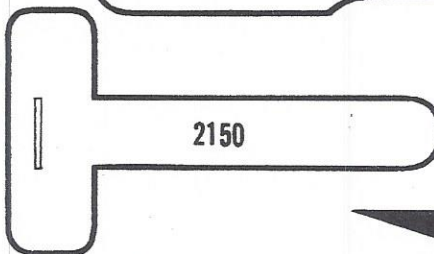

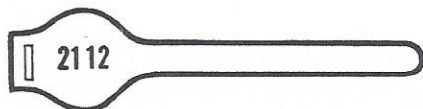

**STAMPING.** All markers may be stamped ( $3/32"$ ,  $1/8"$ ,  $3/16"$ ,  $1/4"$ ,  $5/16"$ ) or embossed ( $1/8"$ ,  $3/16"$ ) with wording, numbers, symbols . . . or mixed combinations. Special stamps may be ordered for any type face or style. The amount of stamping is limited only by the size of characters and marker body area. Stamping may be enamel filled in red, green or black—\$2.00/C.

**PRICES.** Prices shown in tables are for plain markers, without stamping, made of standard gauge aluminum, FOB Battle Creek, Michigan. For total order quantity of any size and style under 1M **ADD** a die, setup charge—\$2.50. If your requirements are for quantities larger than 5M or for design variations, ask for a quotation.

Stamping charges vary with marker style and quantity per given text. No additional charge for stamping the styles shown with asterisk (\*) when quantity of identical stamping is 5M or more. For stamping quantities under 5M, stamping charges are \$1.00/M for asterisk (\*) styles and \$.75/C for other styles — stamp changes are \$.75/change.

**ACCESSORIES.** Steel stamp ( $1/8"$ ) figures and letters for hand stamping—\$2.75 and \$8.25 per set. Stamping anvil—\$3.85. Mechanics pliers (for attaching Style 2740 series) and to assist mounting other styles—\$2.50. Grommets, tag wire, "S" and "Jack" hooks are also available.
